Notice of Prescription Drug Creditable Coverage

Important Notice about Your Prescription Drug Benefits and Medicare Prescription Drug Coverage

Please read this notice carefully and keep it where you can find it. This notice has information about your current UFCW Plan prescription drug coverage and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

The UFCW Plan provides prescription drug coverage for all eligible active participants. If you are eligible for Medicare, you do not need to join a Medicare prescription drug plan since you have coverage available under the UFCW Plan.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. The UFCW Plan has determined that your existing, active UFCW Plan prescription drug coverage is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When can you join a Medicare drug plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two month Special Enrollment Period to join a Medicare drug plan.

What happens to your current coverage if you decide to join a Medicare drug plan?

If you decide to join a Medicare drug plan, your current UFCW Plan coverage will be affected. Your coverage under the UFCW Plan will be coordinated with your Medicare prescription drug coverage.

If you decide to join a Medicare drug plan and drop your current UFCW Plan coverage, be aware that you and your dependents will not be able to get this coverage back until the UFCW Plan's next open enrollment period in November.

When will you pay a higher premium (penalty) to join a Medicare drug plan?

If you are entitled to Medicare and you drop or lose your coverage with the UFCW Plan and do not join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

(Continued on Reverse)

If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go 19 months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.

For More Information about your Options under Medicare Prescription Drug Coverage...

More detailed information about Medicare plans that offer prescription drug coverage is in the "Medicare & You" handbook. You will get a copy of the handbook in the mail every year from Medicare. You may also be contacted directly by Medicare drug plans.
